**Attachments:** smime.p7s

Thank you for forwarding the complaint. I talked to my field oversight guys and asked them to continue to reinforce dust control as a priority. Without more detail, I can't do much more on this end.

Derek

Lily, this is a more recent complaint you may have seen on IVAN, without much detail, concerning trucks coming from the Shipyard site without adequate dust control. I just wanted you to have Bronson Johnson's responses should you also get asked about this situation.

I don't know if the IVAN complaint concerns the Navy portion of the Shipyard, or through which gate the trucking traffic is being observed.

Just adding a bit of info. I've heard that the Navy has opened the Crisp Rd gate for certain hauling activities (Amy may know more). The location of the pin seems generally located on Crisp Rd., though not exactly at either gate. My earlier comments were focused on the other gate at Donahue.

Thx

B

Thanks for the forward. Vagueness makes this very difficult to substantiate. Traffic includes trucks related to Navy construction, Lennar construction, artists, Navy contractor staff, Lennar contractor staff, and new residents. Traveled roadway is squeaky clean so not sure how cars can be generating dust. Our new residents who live near the project gateway have not complained of the same.

Please let us know if there is any follow up required.

Thanks,

Bronson

It is unclear to me if the complaint re. road dust generated by trucks involves those coming from Lennar-managed or Navy-managed parcels at the Shipyard. Please let me know if you have any information that I can add to my response.
